To preserve the core as a work of art even during a period of rapid growth, Biegert & Funk introduced the QLOCKTWO EARTH CREATOR'S EDITION. From then on, their covers are refined by artisans, exclusively numbered, and bear the signatures of the two artists—making each piece unique.

MOON

by A·D·U·

MOON

by A·D·U·

MOON is a revolutionary new object for the home. It is not just a lamp that you turn on and off, but a clock that faithfully reflects the phases of the moon. MOON automatically lights up at moonrise and dims as the moon sets below the horizon. Perfectly synchronized with the moon, MOON provides the space needed for contemplation. You have no control over it, but you might gain patience, hope, and a deeper understanding™.

GARLO

CHAISE LONGUE

Garlo I is a limited-edition chaise longue handcrafted in Italy. It combines light art installations with furniture. The stars are the inspiration for this piece. The idea is to bring something light-years away closer to us and establish a physical connection. We are part of everything, and thus there is a direct link between us and the stars we admire.

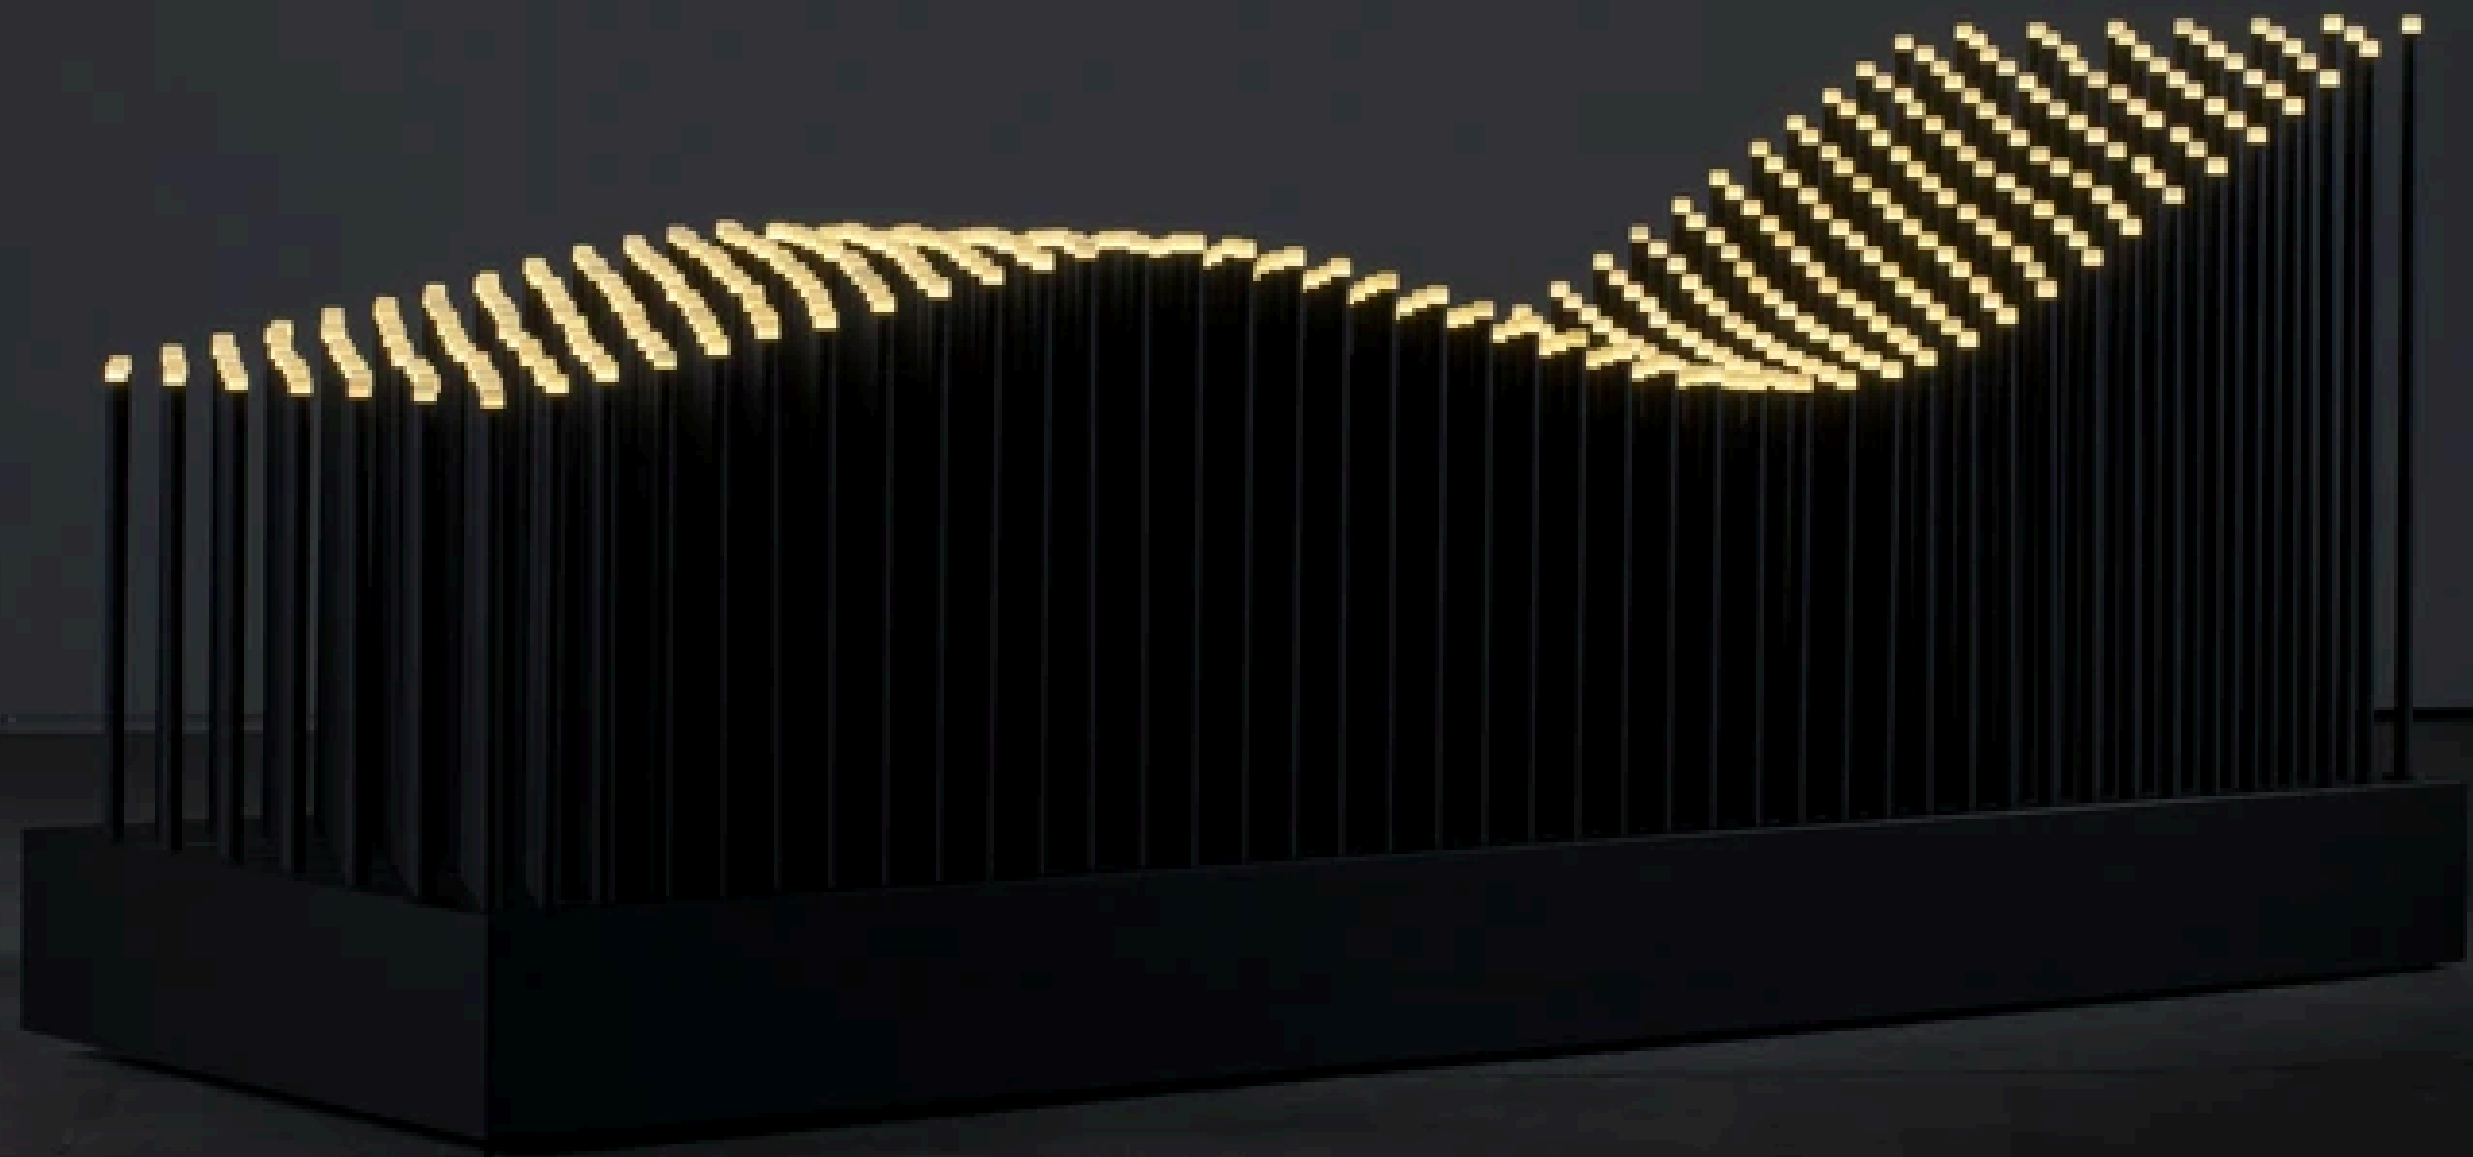

This piece makes that connection tangible.

The piece features matte black steel posts and a base of Fenix and nylon (LED) bulbs. The posts also include a shock absorption system, allowing them to adapt to the shape of the body and provide a comfortable experience.

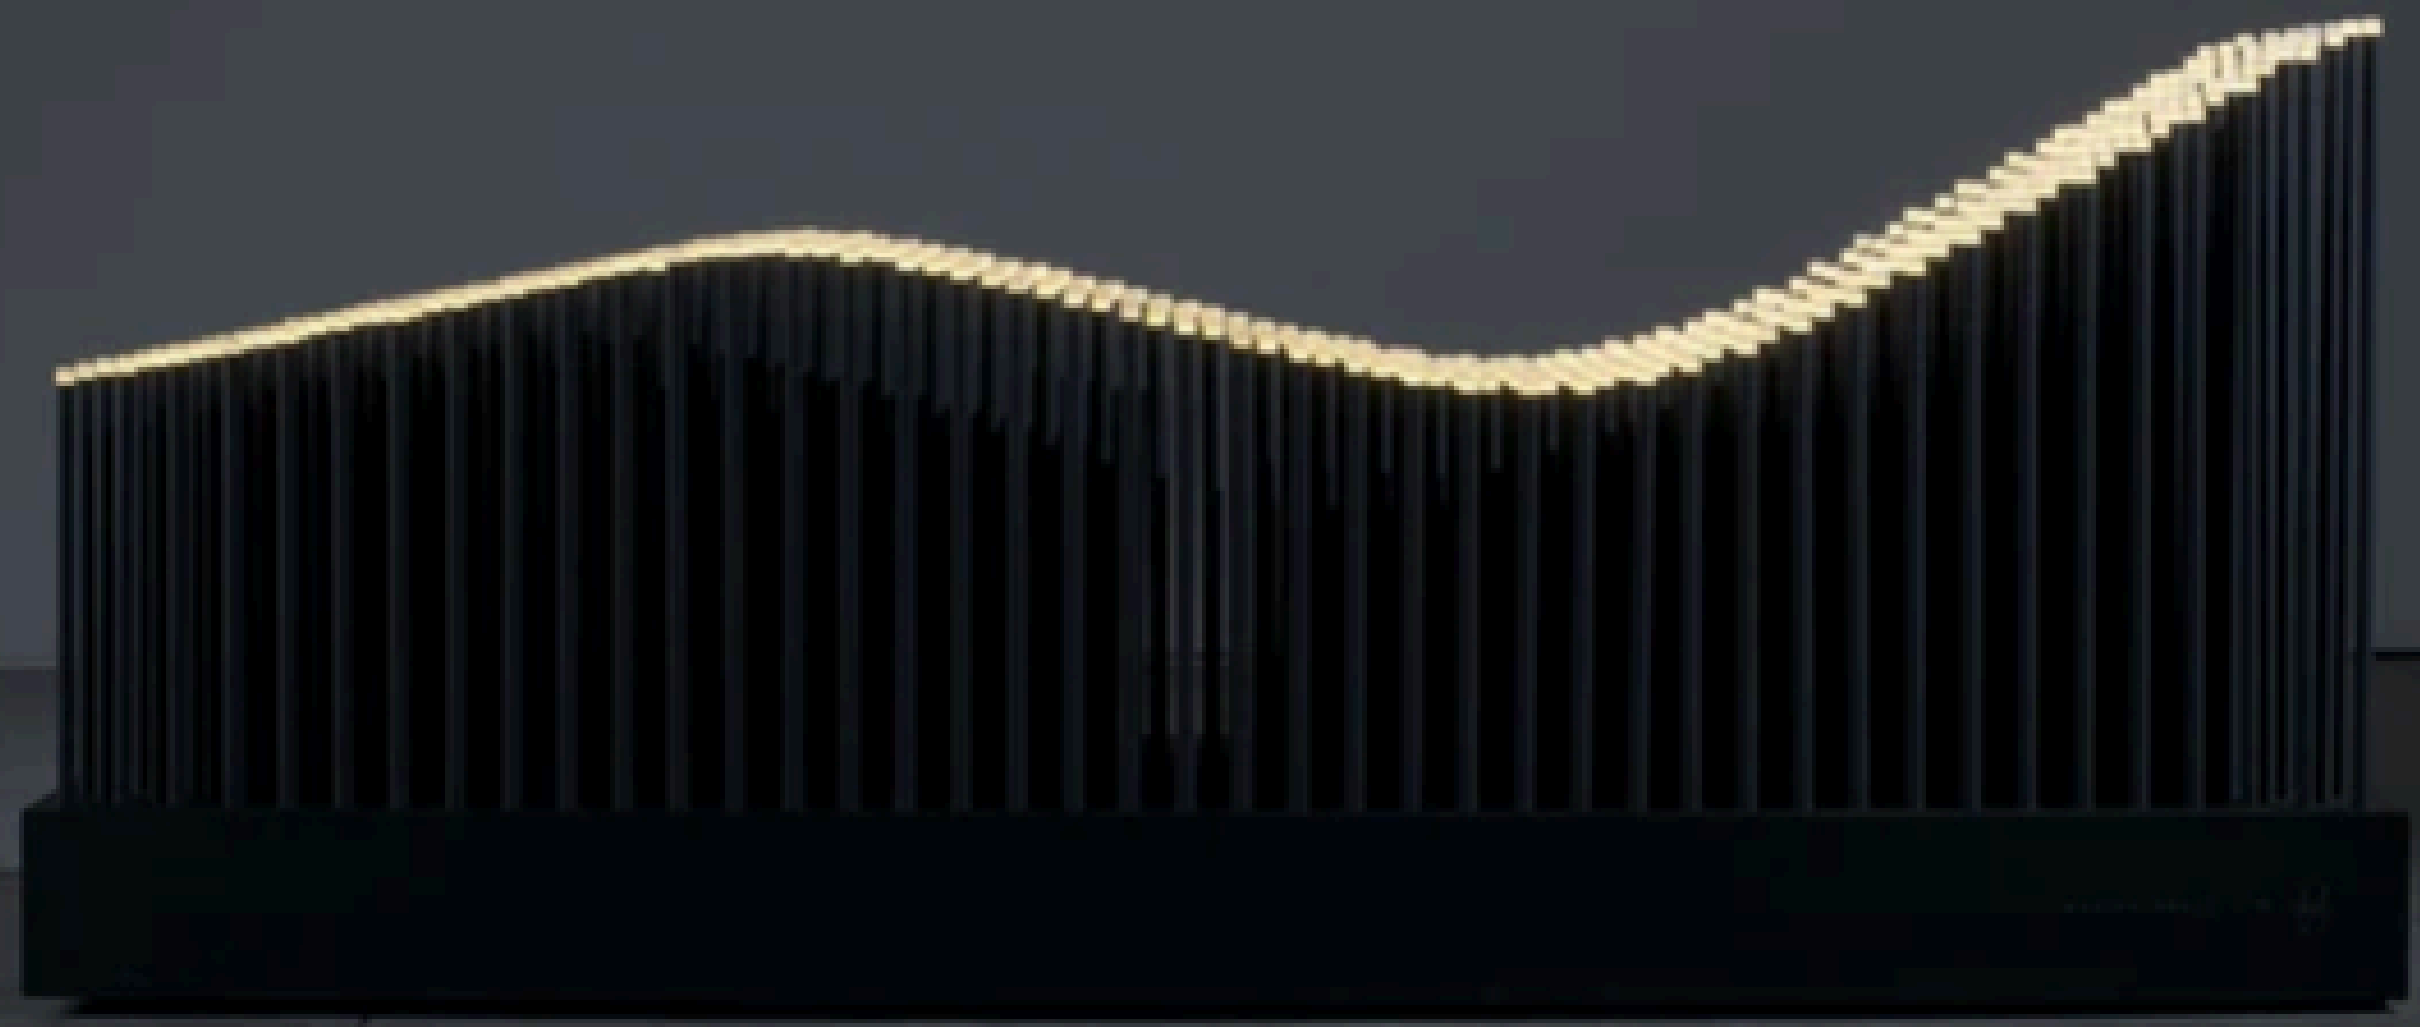

Marina Garlo is a Spanish designer based in London who aims to bring us closer to light by giving brilliance to unexpected utilitarian objects. Her inspiration is to help us feel spiritually light; to make light a part of us and for us to be part of the light.
